

LETS DISCUSS VACCINES AND “NO JAB NO PAY NO PLAY ”

Vaccination is a hot topic right now and a **documentary** is being made to explore both sides of this debate. We will be filming a Q&A style discussion to give you an opportunity to express your views and questions about the issue. We will discuss the government's proposed No Jab No Pay policy that will make vaccination mandatory for parents/adolescents who wish to receive government welfare benefits and childcare assistance. A professional panel representing both sides of the government's proposed legislation is being organised to examine the question:

HAS THE SAFETY, EFFICACY AND NECESSITY OF VACCINES IN THE GOVERNMENT'S SCHEDULE BEEN CONCLUSIVELY DEMONSTRATED?

Panelists:

Judy Wilyman, Master of Science (Population Health) and currently completing a PhD on the Australian Government's rationale for the expansion of the national vaccination program. Her website is Vaccination Decisions www.vaccinationdecisions.net

A representative from the government or medical profession is also being invited to answer your questions.

Thursday October 15th
6pm DOORS OPEN
6.30 pm PANEL starts

Location UTS
BON MARCHE studio,
