

WA Premier, Mark McGowan

21 February 2019

To the Honourable Mark McGowan,

RE: No Jab No Play Policies in WA

I am writing to you on behalf of the concerned Western Australian community that have not been consulted on the **No Jab No Play Phase 1 Regulations** that you implemented in WA in January 2019.

I have previously requested a meeting with Minister Cook on this issue but he has not provided me with an opportunity to speak with him about the community's concerns.

I am the spokesperson representing many concerned West Australian's because I have done extensive research into the government's vaccination policies.

I am now aware that you have taken the initiative on this issue and as a citizen of Western Australia I hope that you will meet with me to discuss the false information that you recently presented in the WA Parliament.

Please take the time to read the global newsletter that I sent this morning (21 February 2019) that outlines our serious concerns about the information you are providing in parliament on this issue. The Newsletter is titled - **WA Premier Mark McGowan Providing False Information to Push Mandatory Vaccination in Schools.**

I hope that you will take the time to read this newsletter 223 and provide me with an opportunity to discuss the community's concerns with you in a meeting in the near future.

Kind regards,
Judy Wilyman PhD
